Date / Signature

IMPORTANT INFORMATION

I. Notes on the Application Process

1. Institute procedures for authorisation of a business trip should be followed.
2. It is in your own interest not to embark on a business trip until you have received written instructions or permission. Failure to do so can lead to loss of eligibility for occupational accident compensation.
3. If the trip is started one or several days earlier for private reasons (or the return trip is made later), then the earlier arrival (or later departure) would no longer be significantly influenced by the professional reference, but by private interests. In such a case, there would no longer be a direct route to (or from) work, with the consequence that this route would not be covered by statutory accident insurance cover.
4. In deviation from the provisions of the BRKG, the Forschungsverbund only reimburses 2nd class train travel.
5. Reasons must be given for use of rental cars.
6. A standard rate per kilometre is reimbursed for travel by modes of transport other than those specified in Section 4 BRKG. Forschungsverbund Berlin e.V. bears no liability for damage to property.
7. If it is in the clear interests of the Institute that a private car be used pursuant to Section 5 (2) BRKG, a separate application should be made to the Institute Director.
8. Details of per diem and overnight allowances can be found at <http://www.fv-berlin.de/intern/download-formulare-1>.

II. Notes on Reimbursement

1. Reimbursement of travel expenses must be claimed within 6 months of travel (beginning with the day following completion of your journey). Travel expenses cannot be claimed after this period.
2. All claims must be supported by original receipts (travel expenses, conference fees, incidental expenses, hotel, taxi, etc.).
3. For trips abroad, the date and time of border crossing (for flights, the time of landing in the respective country) must be stated.
4. Reasons must be given for accommodation costs exceeding the standard rates (€ 70 in Germany/specified rates abroad).
5. Meals provided free of charge must be declared. These include meals included in conference fees or served in flight. The same applies to accommodation provided free of charge.
